Education

Aug 2019 | **BS in Computer Science**, *Fordham University, New York, NY.*
May 2023

Work Experience

- Aug 2019 – **SEO Lead Finder/Project Management**, *JCSurge, New York, NY.*
Present
 - Every few months, I create a gantt chart, with goals set up for customers that we follow until project completion.
 - I make spreadsheets of companies across different states, and I determine which leads to work on. My coworkers filter these, and they are then contacted by the SEO specialists.
- Aug 2019 – **IT Technician**, *Fordham University, New York, NY.*
Present
 - I analyze and diagnose software and hardware of several different OSes. I also do replacements, and printer repairs.

Skills

Programming Languages C++

Leadership skills I am Senator of the Commuter Student Association, I was elected president of Tech Club in Fordham, however I was a Freshman so I couldn't take the position. I am also currently trying to found a Mediterranean club in Fordham

Hard-work ethic I am very driven in my tasks, and I do not leave anything half done.

Mental Math Arithmetic skills I can calculate large quantities of numbers through adding, subtracting, dividing, and multiplying in a fast pace.

Level-headed I do not crack under pressure, and I try to find logical solutions to my issues, rather than panic about them.

Projects

Life is an imitation of Art, *Xcode.*

I created an app that lets the user select how they feel by choosing pictures and then I give a detailed diagnosis and resources at the end of the app.
